

Dock / Two seats sofa frame Design / Sebastian Herkner

The Dock collection is made up of easy to assemble modular components that are ideal to elegantly personalise any room thanks to the understated elegance of the design. The many combinations make Dock a highly varied and flexible collection. Lounge chairs or sofas of varying sizes are just a few of the elegant and carefully designed elements that Dock lets you create with great ease and simplicity. The aluminium bases and the backrests of varying heights can create a variety of combinations that are all inclusive and enhanced by a set of elegant water-repellent cushions. The collection of glass-top coffee tables graced with a variety of designs and finishes complete the collection. The variety of shapes and sizes leaves room for a wide range of original combinations.

Materials

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

Cushion Material

Acrylic Fabric

Il tessuto 100% acrilico viene internamente spalmato con poliuretano; tale processo lo rende idrorepellente, altamente resistente ai raggi UV per un'ottima performance nelle aree outdoor.
