

Time Travel

mod. 2235
design by Gianluca Minichillo

Colors:

Berlin black and grey
New York black and red
Paris black and purple
Rio de Janeiro black and green

Time Travel is a series of wall clocks originating from the designer's idea to allow people who live in a country other than their city of origin to feel 'at home' through time, but not only, it also allows us to dream of a destination and to follow the time where friends and relatives live. A Time Travel takes you today to most important world's cities... choose your destination. The clock is made of black-painted wood and in metal colored different for each city. Two battery quartz movements.
